Attention: **BOX MISSING PARTS**

Sir:

**SUPPLEMENTAL RESPONSE TO NOTICE TO FILE
MISSING PARTS OF APPLICATION**

Applicant submitted a Response To Notice to File Missing Parts of Reissue Application on July 30, 2001. Subsequently, Applicant's undersigned representative received a call from a Patent Office personnel requesting that Applicant submit a substitute specification, although it was not required in the Notice to File Missing Parts, and a statement establishing ownership of the patent.

With this response, Applicant submits a substitute specification as requested.

The above-identified application is a reissue application. The specification is "in double

column format" as the rules now require. See 37 C.F.R. § 1.173(a)(1). In particular, Applicant provides the "entire specification, including the claims, of the patent for which reissue is requested" "in the form of a copy of the printed patent, in double column, each page on only one side of a single sheet of paper." See 37 C.F.R. § 1.173(a)(1).

The above-identified reissue application is a continuation of reissue application no. 08/861,4457 for U.S. Patent No. 5,462,120 (the '120 patent). A title report was filed in the parent reissue application of the above-identified reissue application establishing that Halliburton Energy Services, Inc. is the assignee of U.S. Patent No. 5,462,120, and reissue application 08/861,457. Such title report was attached as paper no. 2 in reissue application no. 08/861,457. Applicant believes that such title report establishes ownership of the above-identified application in Halliburton Energy Services, Inc.

In addition, Applicant hereby provides another copy of the title report filed in parent reissue application 08/861,457. The title report shows that the '120 patent was assigned by the inventor Michel Gondouin to S-Cal Research Corporation on December 12, 1991, recorded at Reel 6081, Frame 0249. The title report further shows that the '120 patent was assigned by S-Cal Research Corporation to Halliburton Company, on November 21, 1996, recorded at Reel 8251, Frame 0562. The title report also shows that the '120 patent was assigned to Halliburton Energy Services, Inc. on December 12, 1996, recorded at Reel 8535, Frame 0562. Thus, the undersigned, who is authorized to act on behalf of the assignee Halliburton Energy Services, represents that the chain of title from the inventor, Michel Gondouin, to Halliburton Energy Services, has been established in accordance with 37 C.F.R. § 3.73(b).

The required fee for late filing of the Declaration was provided in Applicant's Response To Notice To File Missing Parts of Application filed on July 30, 2001. Applicant does not believe that any additional fee is required at this time. However, if any additional fee is required, please charge such fee to our deposit account 06-0916. In addition, please grant any extensions of time required to enter this response and charge our deposit account 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
